

PROPOSED SHORT 5-MINUTE PRESENTATION:

COORDINATORS SYMPOSIUM  
2015 AADPRT ANNUAL MEETING

Title of Five-Minute Presentation: Systematic Program Evaluation: A best practice example

Educational Objective(s): Audience will understand the OHSU systematic program evaluation method including its purpose, what makes it effective and how they can implement a similar program.

Please provide a brief description of your presentation: In 2012, the OHSU adult psychiatry residency training program began implementing their systematic program evaluation process. The process involves creating a schedule of all essential rotations and didactic seminar groups, then having residents (PGY2-4) sign up to review each area. Residents spend time interviewing others who have recently completed the rotation, as well as the rotation coordinator to gather feedback. A report is created and presented to our EPC (Educational Policy Committee – which will likely now be PEC) which includes resident and faculty representatives as well as Program Directors. The rotation coordinator attends and is available to respond to ‘strengths and areas for improvement’ and navigate the conversation around the individual rotation. This process creates an annual review, an unbiased report, a means for feedback to be provided in a timely manner and allows rotation coordinators to not only be held accountable for necessary changes, but allows the department to bring major issues to the powers that be to make real change possible.

Please provide an example of how you have utilized your presentation's central idea within your program. OHSU has been using this since 2012 with great results. We get more timely feedback, rotations are reviewed annually and thoroughly, residents participate and are given credit for one of their portfolio requirements for doing so.

Will you have a PowerPoint slide, or a Word or Excel document you would use to help visualize your presentation? Yes.
